   - The AIWS City is an application and practice of the thoughts and ideas of Vint Cerf.

2. Principles and Concepts:
   - Vint Cerf’s idea:” “All people can create value for each other. A good economy has an ecosystem of organizations that lets that happen, in the most meaningful and fulfilling ways.”
   - AIWS City is virtual city that applies the standards of “the Social Contract 2020”, “People Centered Economy”, “Intellectual Society-Thoughtful Civic Society”, and “AI-Government”.
   - The features of Intellectual Society-Thoughtful Civil Society are knowledge, critical thinking and social responsibility.
   - AIWS City can assist citizens to become more thoughtful by enhancing knowledge, critical thinking and social responsibility
   - AIWS created the concept of AIWS Value. AIWS Value: traditional value (products, services, data, etc.) + social values (contributions), recognize and exchange traditional and social values.
   - AIWS City will operate based on AIWS Value in order to create a good Ecosystem of the People Centered Economy - “all people can create value for each other”.
