

Official Badges of the AIWS Ecosystem

Notice of Adoption and Use

EFFECTIVE SEPTEMBER 29, 2026

The Boston Global Forum announces the official badges of AIWS and its ecosystem, effective September 29, 2026. This notice sets out what each badge represents, where it is used, and the rules that govern its use.

I. The Common Emblem

The Angel rising in light, the Bald Eagle above her, and the two mai vàng blossoms on the ring form the common emblem of AIWS. Every badge in the ecosystem carries this emblem unchanged. Only the inscription on the ring differs, and it names the part of the ecosystem the badge represents.

One emblem, many names: whoever sees the emblem knows it is AIWS; the inscription tells which part of AIWS it is.

II. The Badges

AIWS Civilization

AIWS CIVILIZATION · HUMAN-AI CO-CREATION

The mark of AIWS Civilization, the Civilization of Human-AI Co-Creation, and the principal badge of the ecosystem. It appears in the colophon of every BGF-AIWS document.

This version replaces, from September 29, 2026, the earlier version whose lower arc read LOVE · CREATIVITY · NOBILITY · WISDOM. The AIWS Civilization badge carries the model of the civilization; the AIWS Lumina badge carries its values.

AIWS Lumina

AIWS LUMINA · LOVE · CREATIVITY · NOBILITY · WISDOM

The mark of AIWS Lumina, the cultural architecture of AIWS Civilization, carrying the four values toward which humanity is called. It is used for AIWS Lumina programs, festivals, the AIWS Lumina Cities, and AIWS Lumina Lab.

AIWS Human–AI Co-Creation Movement

HUMAN–AI CO-CREATION MOVEMENT · AIWS

The mark of commitment. It may be displayed by any person, school, organization, or community that has joined the Movement by taking its three commitments: I remain the author of what I create. I bring my own culture into what I create with AI. I use AI to become more capable, never less.

It signifies commitment, not certification.

The Human–AI Co-Creation Atlas

HUMAN–AI CO-CREATION ATLAS · AIWS

The emblem of the Atlas at atlas.aiws.net and of its publications.

AIWS Co-Elevation Certified

CO-ELEVATION CERTIFIED · AIWS · OUTER RING: LEVEL I–IV · INDEPENDENTLY VERIFIED

The mark of verification. It is granted only to organizations that have been independently assessed, at one of four levels, and it states that the organization has been verified, not merely that it has made a commitment.

Its outer gold ring, bearing the level, distinguishes it from every other badge.

III. Rules of Use

- **The emblem is never altered.** It is not recolored, cropped, or redrawn. Only the approved inscriptions appear on the ring.
- **Master files only.** Badges are reproduced only from the official master files, with their transparent background intact.
- **Commitment is not certification.** The Movement badge is never presented as certification. Only the Co-Elevation Certified mark states that an organization has been independently verified, and only at the level granted.
- **The Boston Global Forum logo stands alone.** Where it appears, no BGF or AIWS text is set beside it or directly beneath it.
- **Small sizes.** Below 64 pixels the inscriptions cannot be read; at such sizes the name is set in text beside the badge.

- **Authorization.** Use of the badges by organizations other than the Boston Global Forum requires its authorization, except the Movement badge, which is open to all who join the Movement.
- **Earlier publications.** Publications issued before September 29, 2026 keep the badge with which they were issued.

Boston, September 29, 2026
