Introducing Thăng Hoa and Its Badge

The Human Spirit in the Age of AI

Lighting the Human Spirit in the Age of AI

On Beacon Hill, Boston, on November 15, 2026, the Boston Global Forum introduces the badge of **Thăng Hoa (Ascend and Flourish)**: humanity's faith in itself in the AI Age, and the faith of AIWS Civilization.

If AIWS Trust is the firm foundation anchoring technological systems on the solid ground of law, transparency, and governance, then Thăng Hoa is the pair of wings lifting human conscience and spirit skyward.

THE WORD

Thăng · Hoa

In Vietnamese, **"Thăng"** evokes the transcendent impulse of soaring into a vast, luminous expanse, resonating with the sacred imagery of the Ascension in Western tradition, while **"Hoa"** signifies a blossoming, distilling into the pure radiance of Love, Creativity, Nobility, and Wisdom.

Thăng Hoa (Ascend and Flourish). English has no single word that holds both meanings, so the name is kept in its original Vietnamese, Thăng Hoa, in every language.

Entering the Age of AI, humanity requires more than institutional trust in algorithms or systems; it requires an ascending faith that liberates the human soul from insatiable material greed, and from the bondage of hatred, fear, and cold loneliness.

Conceived on Beacon Hill in Boston, the historic cradle of constitutionalism and the Commonwealth, and reaching toward profound dialogue in Rome and the Vatican, Thăng Hoa stands as the spiritual beacon and faith of AIWS Civilization and the Commonwealth of Minds: a civilizational horizon where scientific reason unites with human compassion to elevate dignity, wisdom, and lasting peace.

THE SPIRIT

What Thăng Hoa Holds

The founding text will set out each of these. Here they are named.

- **Humanity is not finished.** AI is neither a savior nor an ending, but the occasion for the greatest rising of human beings.
- **A shared faith in the human being.** Not a new religion: every tradition, and those of no religion, can bless it from within. No one leaves the faith they hold. Not a path, but a light for every path.
- **Freedom from the inner chains:** greed, hatred, fear and loneliness.
- **Four lights:** Love, Creativity, Nobility, Wisdom.
- **Three postures:** the eagle, the golden apricot blossom, the angel.
- **Three movements:** Thăng Hoa: ascend and flourish. Light one. From love, create something new for humanity.
- **A spirit that can be shown:** the Human Advancement Test, The Human–AI Co-Creation Atlas, and the Light Tree of Humanity.

TWO FORMS

One Spirit, Two Badges

The Human Spirit in the Age of AI
for the life of the Spirit

THE ROAD AHEAD

Spreading from Beacon Hill

- **November 23, 2026** · Bridgetown, Barbados: the United Nations Bridgetown Special Summit on AI Safety.
- **December 3, 2026** · Rome and the Vatican: the World Summit of Nobel Peace Laureates.
- **December 3, 2026** · Boston: the Festival of the Light Tree of Humanity at the Boston Christmas tree lighting, spreading to eight cities.
- **January 1, 2027** · Publication of the official documents of Thăng Hoa.

The full text of Thăng Hoa will appear in the special issue of **The Beacon Papers** welcoming 2027, published on **January 1, 2027**. We invite you to read it.

Humanity leads. AI elevates. Together, we create.

Love · Creativity · Nobility · Wisdom
